EXPERIENCE

FREELANCE | SOFTWARE DEVELOPER
Feb 2022 – Current | México, Sonora

- ➜ At Devstar, i built a mobile application to set diet plans in flutter. Nutritionists can benefit from the app, where they can just focus on designing their diet plans, and let the app do the repetitive tasks.
- ➜ At Clicker-Tecnologia, i serve as an QA on the migration and testing, of the system whose main purpose is to ensure accountability in government transactions.

GLOBALVOIP | SOFTWARE DEVELOPER
May 2023 – Feb 2024 | México, Sonora

- ➜ I developed a dashboard using PowerBI.The main focus was to be able to measure and visualize, the ticket resolution process for each engineer. A ranking was featured with positive results..
- ➜ I built a dashboard whose purpose was to be able of demographic analysis, using smart cameras.Nodejs to transform, store and clean the data. PowerBI to visualize and analyze the data.
- ➜ I built a dashboard for a Coffee Shop in PowerBI , whose main task was to decrease the driver wait time. With Smart cameras who capture entrance and exit of each driver,the dashboard was a case of success.

UNIVESITY OF SONORA | NETWORK ENGINEER
Feb 2024 – Feb 2025 | México, Sonora

- ➜ My main task was to provide support in the installation of optic fiber, structured cabling, avaya devices, and configuration of extreme networks switch.
- ➜ I developed Management system in .NET,only focused on the infrastructure items such as copper cable, and switches, very useful for building monthly reports.

PROJECTS

NETWORK SAHUARO | JAVA , SPRINGBOOT FRAMEWORK
2023 - Currently

- ➜ I designed a mobile application to keep track and measure,the impact of conservation efforts being made by environmentalists groups in Sonora. Our primary goal is to reassert the native plants.
- ➜ Raise awareness about the importance of planning and designing environmental activities.

TERRITORIAL PLANNING SYSTEM | C#, ASP NET
2022

- ➜ We developed an information system that integrates both public databases from INEGI, INE, IEES, etc., and the party's internal information to enable data analysis for proposing public policies.
